

# zkCross Network Updates

## AlphaMind Project Memo

**We are thrilled to announce zkCross Network as one of the upcoming IDOs on AlphaMind!**

*With 70% of the AlphaMind community eager to participate in the upcoming IDO, zkCross has demonstrated a strong bullish sentiment.*

### 🔥 Why zkCross Network Stands Out:

zkCross Network is the AI and Chain Abstraction infra layer connecting all blockchains, assets, and protocols for truly effortless DeFi. They are building SuperAccounts, the first DeFAI Mobile SuperApp leveraging AI Agents to make DeFi participation as simple as sending a text. Analyse markets, find new tokens and automate trading with powerful AI Agents.

- **Pioneering Tech:** Bridges assets across EVM and non-EVM chains, simplifies asset swaps, and reduces technical complexities (multi-wallets, fees, etc.).
- **SuperAccounts App:** The first mobile SuperApp with integrated AI agents, allowing users to trade, swap, bridge and manage their crypto portfolios through AI recommendations all from a single app.
- **Proven Track Record:** 4 mainnet launches, 4 testnets, and partnerships with 10+ ecosystems like Arbitrum, Stellar, Partisia, ICP, Tezos, etc.

### Key Achievements

- **SuperAccounts live** on mainnet, simplifying DeFi, abstracting complexities and bringing AI DeFi Agents to the retail public, web2 and web3.
- **First AMM DEX on Partisia** Blockchain.
- First decentralized **EVM & non-EVM bridge on ICP**, powered by chain fusion technology.
- **First one-click cross-chain liquid staking & PERP DEX** on Stellar. Connected Stellar to 79% of DeFi & 100+ fiat currencies.
- Blockchain Founders Fund, NxGen, Master Ventures, Cointelegraph, Arbitrum, ICP, Partisia, Stellar, and other prominent backers.

### Financial Momentum

- **Lowered FDV for the public round at \$27.3M.**
- Approaching \$1.3M in total revenue.
- Secured \$3.1M in oversubscribed rounds and \$650k in grants (incl. Arbitrum Foundation).
- **Launchpads secured:** AlphaMind, Paid Network, OpenPad, Synapse, BRCStarter.

### Ecosystem Growth

- **\$130.73M** transaction volume
- **236k+** total transactions
- **40k+** unique users onboarded
- **71K+** community members

### Product Development Updates

Mainnet Launches:

- [Hive](#)
- [Splinterlands](#)
- [Tezos](#) (Dogami bridge)
- [Partisia](#)

### Upcoming Announcements

- **SuperAccounts full version** launch in **Q1**.
- Fully decentralized EVM/non-EVM bridge mainnet.
- **50M \$CROSS** tokens allocated for a community airdrop.
